

THE CALL

After high school, Jonathan served 6 years in the Air Force. The Lord gave him many opportunities for success in the military.

Jonathan provided aircraft security for President G. W. Bush and cabinet members while in his first term of office. While learning about Christ's command to go make disciples God opened Jonathan's eyes to many people groups all across the world including his coworkers. He began meeting with missionaries on the field while flying with the Air Force. God showed him that missionaries are not super spiritual Christians but rather commissioned soldiers of an active church who will go on a mission so that others too may hear and believe the gospel.

While serving his last year working for the Joint Chiefs of Staff at the Pentagon, Jonathan surrendered his life to full time missions and left the Air Force and several six figure job opportunities in 2005. He obtained a B.A. in Bible & Missions at Piedmont Baptist College and a M.A. in Biblical Studies at Central Baptist Theological Seminary.

Is the Lord Calling
You to Go?

THE MISSION

Our goal is to build relationships with Spaniards, see them come to Christ, and plant indigenous Independent Baptist Churches as a team.

Less than 1% of Spaniards are Evangelical Christians

Spain is the Least Evangelized Spanish Speaking Country

Since the days of the Inquisition, Spain has been considered the special territory of the Roman Catholic Church, though only about 15 % would consider themselves active. Religious freedom was granted in the Constitution of 1978, but it has taken many years for this new religious freedom to find acceptance and practical enforcement. The cults are very active in Spain, the Jehovah's Witnesses being the largest single cult. Secular humanism, materialism, and moral relativism, however, are the greatest obstacles to gospel ministry.
